## PHOSCLEAN

PHOSCLEAN - DESCALER

### DESCRIPTION

**TREBLEX Phos Clean** is a phosphate-based rust treatment for use on corroded ferrous surfaces as a pre-treatment prior to painting. Phos Clean is a highly active and fast acting rust and scale remover suitable for use on stainless steel, ceramic tiles, glass, floor tiles and swimming pool surrounds.

Sizes available: 5L, 20L, 200L, 1000L

### APPLICATIONS

Treblex Phos Clean is suitable to use in Marine, Mining, Construction and Automotive Industries.

### BENEFITS

TREBLEX Phos Clean;

- Forms a strong stable matrix with rust.
- Contains deep penetrating solvents.
- Suitable for over coating with most conventional finishes.
- Maybe used on any rusted steel surface.
- Removes stubborn scale

### DIRECTIONS

- Remove loose flaky rust and paint using a wire brush.
- May be applied by brush or spray.
- For treatment of heavy rust or in hot, dry conditions the surface may be re-applied after 1 hour.
- Spray or brush onto surface to be treated, leave for 10 minutes, then wash off.

Dilution rates:

- Light Duty – 1:25 parts water.
- Heavy Duty – 1:10 parts water.

**PRODUCT CODE: TPC**

### SAFETY

Keep out of reach of children. Read SDS before use.
