PRODUCT DATA SHEET

Product Code: TPW

PARTS WASH

DESCRIPTION

TREBLEX PARTS WASH is a combustible hydrocarbon specifically formulated for use in degreasing and parts bath applications. It can also be used as a carrier fluid for non-regulated products. Treblex Parts Wash is a wide boiling range, slow evaporation solvent.

Ideal as a safer parts wash, where a safer solvent is desired for duty of care reasons.

BENEFITS

Treblex Parts Wash can be included in any formulation where a cost-effective degreaser is required. It is miscible with all other organic solvent.

- Mid-range aromatic content
- Slow evaporation rate
- Non-regulated for storage and transport
- Has good solvency for greases, oils, waxes and general dirt
- Versatile- Treblex Parts Wash can be included in any formulation where a cost effective degreaser is required. It is miscible with all other solvents.

APPLICATIONS

When used as directed Treblex Parts Wash can be used in the following applications.

- Engine re-conditioners
- Auto Detailers
- Electric Motor re-winders
- Transmission components

Typical Characteristics:

Appearance:.....clear, pale yellow liquid
Specific Gravity:.....0.82
Flash Point:.....61°C[PMC]
Boiling Range:.....150-280°C

Package sizes: 20L, 200L

SAFETY : Classified as hazardous. Please read SDS sheet before use. Keep out of reach of children.

Information contained herein is accurate at the time of writing this document. However specifications change from time to time, please ensure that the specifications meet your requirements.
